Data / APIs	PostgreSQL, Prisma, Drizzle ORM, Redis, Stripe, REST, GraphQL, WebSocket
Mobile	React Native, Expo, Kotlin, Jetpack Compose, SQLDelight
AI / enterprise	Palantir Foundry, Workshop, Ontology APIs, LLM integration, OCR
UI / state	Zustand, TanStack Query, Tailwind CSS, Storybook
Quality / delivery	Vitest, Playwright, Docker, Linux, Nginx

PROFESSIONAL EXPERIENCE

Dev Ring Technology

Nov 2025 - Present

Senior Full-Stack Developer Consultant

- Deliver web, mobile and AI products across interfaces, APIs and databases.
- Translate client requirements into workflows and technical priorities.
- Coordinate developers, releases and ongoing production improvements.

Client assignment: Public Investment Fund (PIF)

Riyadh, Saudi Arabia | 26 Jun 2026 - Present

Evidence AI / Partner Hub, KPI Charter Manager and Business Case / RFP Comparator.

BearStudio - France (Remote)

Aug 2019 - Oct 2025

Mobile & Web Developer

- Delivered web and mobile features with product and design teams.
- Improved performance and stability, maintained reusable components and handled releases.

SELECTED PROJECTS - PIF CONSULTING

Evidence AI / Partner Hub

Role: Full-Stack Developer Consultant

React, TypeScript, Node.js, Express, Python, OCR, Linux, Nginx

- Built a private AI document-chat tool on Contabo with React, Node.js and Python.
- Ingested PDF, Word, Excel and images with text extraction, OCR and retrieval.
- Linked answers to source pages, cells and highlighted proof in original documents.

PIF CONSULTING PROJECTS CONTINUED

Public Investment Fund (PIF), Riyadh - client assignment via Dev Ring Technology

KPI Charter Manager

Role: Full-Stack Developer Consultant

React, TypeScript, Node.js, PostgreSQL, Drizzle ORM, ExcelJS, Palantir Foundry

- Imported KPI data and diagrams from multi-sheet Excel workbooks.
- Built charter workflows and Excel, PDF and PowerPoint exports.
- Added Palantir-hosted AI assistance; integrating Workshop and Ontology APIs.

Business Case / RFP Comparator

Role: Developer Consultant - AI Document Analysis

AI orchestration, document analysis, evidence extraction, scope scoring

- Compared business-case scope and outputs with RFP scope and deliverables.
- Ran parallel AI analyses; supported scores with document evidence and highlights.

FULL-STACK AND MOBILE PROJECTS

NAEST Express

Role: Team Lead / Full-Stack Developer | **Team:** 6+

React, TypeScript, TanStack Start, Node.js, oRPC, Prisma, Stripe, React Native

- Lead a team of 6+ people and coordinate technical priorities and delivery.
- Built transport requests, pricing, onboarding and role-specific dashboards.
- Developed Stripe payments, invoicing and settlements for France and Tunisia.
- Extended driver/mobile workflows and covered critical order flows with tests.

Nayovi

Role: Creator / Lead Developer

Kotlin, Jetpack Compose, SQLDelight, ML Kit, Gemini, OpenRouter

- Created an Android comic and manga reader on the Tachiyomi/Mihon foundation.
- Integrated OCR, AI translation, chapter queues and translated-content caching.
- Managed library and download workflows, Android releases and update compatibility.

Shared Shopping List App

Role: Lead Full-Stack Developer | **Team:** 3

React Native, TypeScript, Expo, Zustand, Reanimated, WatermelonDB, Socket.IO

- Led full-stack delivery and integrated AI meal and ingredient generation.
- Built mobile animations and supported real-time and offline synchronization.

LePatron.email

Role: Full-Stack Developer | **Team:** 4

Vue, Vuetify, Vuex, Node.js, Observable

- Built email-editor features, including blocks reusable across templates.
- Fixed front-end and back-end bugs and stabilized the legacy codebase.

WEB AND MOBILE PROJECTS CONTINUED

Vasy

Role: Front-end Developer | **Team:** 5

React Native, TypeScript, Expo, Firebase

- Built map screens and bottom sheets for search, itinerary and direction flows.
- Optimized map animations and transitions from anonymous to authenticated use.

Cuisinez pour Bébé

Role: Front-end Developer | **Team:** 5

React Native, Magnus UI, Algolia, OneSignal, IAP

- Built mobile screens and Algolia search and filtering.
- Optimized content-heavy screens and maintained mobile performance.

Trashtalk

Role: Front-end Developer | **Team:** 4

Next.js, React, TypeScript, GraphQL, WordPress, Prisma

- Built React and Next.js interfaces for WordPress pages and articles.
- Integrated dynamic CMS content with attention to loading performance.

Lea English

Role: Lead Front-end Developer | **Team:** 4

React Native, TypeScript, Expo, Zustand, Reanimated, OpenAPI

- Led front-end work on the React back-office and React Native app.
- Integrated AI voice chat on Android and iOS and reusable mobile components.

Yoome

Role: Front-end Developer | **Team:** 6

React Native, UI Kitten, Firebase, Redux-Saga

- Built React Native screens and reusable mobile components.
- Integrated ordering, delivery and in-app chat with Firebase.
